

### About Book One

This catalogue is in two parts as described below & comprising the sub-sections shown in the right hand column:

**Part A** provides an overview of the operations, capabilities and services provided by RMS and a summary of the product types available.

**Part B** provides data on the standard range of RMS product types and is divided into 12 sections on the basis of product function. Each Technical Bulletin includes a listing of features, general operating description, application notes, technical specifications and selection options. The publication name, issue date and number of pages is printed in the lower right corner of each page.

### Web Site Updates

The latest issue of all publications are available on the RMS web page as Adobe .pdf files, or contact an RMS sales office or distributor.
